

To whom it may concern.

## **Mark Holt & Co**

We met with the Mark Holt & Co team when attending one of their informative businesses seminars. Impressed by their enthusiasm, energy and ability to think outside the box we made the decision to change and have not been disappointed.

They have helped us with some very complex matters about the way our businesses fit together and on a range of tax issues that this threw out. Following restructuring our savings immediately exceeded their fee and we continue to get the more regular basics done on time and to the agreed fixed fees set at the start of the year.

Whilst it would be easy to think that the energy and enthusiasm might dissipate once they have you signed up, if anything they get even more enthused once they get involved.

My advice to anyone in business is to meet with any of the Partners to see what they can do for you, and if you get an invite to one of their seminars, make sure you go!
